100%  
DESIGN  
TECHNOLOGY  
QUALITY

**6 good reasons why you should choose a Duravit bathroom.**

1. Technology: everything from the sound system to the comfortable rimless toilet
2. Quality: premium materials, skillfully crafted
3. Design: the work of high-profile international designers
4. Sustainability: durable materials and design
5. Comfort: innovative solutions for maximum wellbeing
6. Complete: from planning and design to your dream bathroom

**Unadorned, archetypical, timeless**

The consistently rectangular Vero range of ceramics is a true bathroom classic. With the new furniture program (by Kurt Merki Jr.), Vero has been promoted to a complete bathroom: perfectly matched to the ceramics, the impressive furniture has a distinctive look and is extremely practical. Left page: Console in Mediterranean Oak, with optional LED illuminated edge. Small image, left: Vanity unit with integrated drawer system. Right: The sleek and distinctive chrome handle (combined with furniture surface White High Gloss). Bottom: The Vero bathroom in Ticino Cherry, just one of six attractive finishes.

A Duravit bathroom lasts longer – thanks to sustainable materials and enduring design. We use innovative technologies to develop intelligent bathroom products – for your own personal wellbeing.

**DETAIL.  
PASSION.**

# GLOSS. GLAMOUR.

## The classic

Designer Philippe Starck believes in concentrating on the essentials. This is embodied in his classic Starck series for Duravit – whose individual components look equally good when combined with others. Left: Starck 2 surface-mounted washbasin with vanity unit. Bottom right: Starck 2 washbasin, 21 5/8". Top: The Starck 1 surface-mounted washbasin has an amazingly narrow rim and ceramic tap platform. Small photos, top: The Starck barrel in various finishes.

STARCK  
ORIGINAL

Elegant: Bathroom furniture in linen. What bathroom dreams are made of.

### Comfort and practicality

The Delos (by E00S) bathroom furniture program not only sets new standards in comfortable bathroom design but also in practical finesse. Left: With its "invisible" support, the console appears to float. Center: Console with flush-fitting washbasin installed using an innovative method. Right: The handle-less tall cabinet is easy to open thanks to the overlapping door.

UNIQUE: THE SOFT CONTOURS OF THE HAPPY D.2 SERIES

### Feminine chic

The Happy D.2 complete bathroom series (by Sieger Design) shows off its feminine side with soft, rounded corners that are featured throughout the program. Perfectly coordinated furniture solutions create an elegant, comfortable bathroom. Large photo: Freestanding bathtub with characteristic allround rim. Top right: Toilets and bidets are available in wall-mounted and freestanding versions, as well as with Duravit Rimless® and SensoWash®. Right: Above counter basin with vanity unit in textured, dark brushed oak.

# VALUE. VARIETY.

### Worth every Penny

This is certainly true of the DuraStyle series (by Matteo Thun & Partners). Economical in terms of design and price it offers a decidedly lavish range of washbasins, toilets, bathtubs and furniture. The result is a modern bathroom that is brimming with personality. Left: Furniture in real wood. Bottom right: An example of the extensive range of toilets, shown here with SoftClose seat.

**Accomplished**

The washbowl from the Foster series (by Lord Norman Foster) has an impressively simple, architectural design. Shown here in combination with the Delos bathroom furniture program.

**For eyes, body and soul**

Where does wellness start? In a Duravit bathroom, even the discreet, timeless look has a beneficial effect. Bottom: Starck 1 washbowl and vanity unit in premium Black High Gloss. Center: The washbasin from the PuraVida series (by Phoenix Design) appears soft and lightweight. Right: PuraVida washbowl and vanity unit with characteristic recessed handle. Very bottom: Vero (by Duravit) washbasin with chrome frame. Bottom right: Starck 2 washbowl with console.

**DESIGN.  
ESSENCE.**

We really go the extra mile to create the perfect form using innovative designs, the very latest technology and skilled craftsmanship.

**The one you love!**

Darling New (by sieger design) is the modern, complete bathroom for individualists. Bottom: Darling New bathroom with bathtub, furniture washbasin and vanity unit, mirror, Bottom: Darling New bathroom with bathtub, furniture washbasin and vanity unit, mirror, mirror. Left: Furniture washbasin with large surround. Small photos: Furniture fronts in six different finishes. Combine your own bathroom favorites at [www.mynewdarling.us](http://www.mynewdarling.us)

**LIFE.  
STYLE.**

**Lots of storage space**

This is what you get with X-Large (by sieger design). And yet it doesn't appear heavy at all: With its delicate proportions and design finesse, X-Large is a visual lightweight. Various widths and two depths offer maximum flexibility, whilst eight different finishes ensure maximum individuality. Bottom: Mirror cabinet with LED light canopy and optional sound system.

**FORM.  
FUN.**

**Invigorating**

Almost all Duravit bathtubs are also available with an optional whirl system. So you not only experience bubbling bathing pleasure but also beneficial after-effects. The air bubbles stimulate circulation whilst the water massage stimulates blood flow, easing tension away. Right: Starck whirltub. Small photo: Happy D.2 back-to-wall whirltub. Left: Darling New bathtub with comfortable wide rim.

**Often copied but never matched**

The Starck 3 range (by Philippe Starck) is the measure of all things when it comes to design, variety and price. Very top: Washbasin in single and double variant. Top: Perfect addition: The diverse furniture range Ketho (by Christian Werner). Bottom left: Starck 3 toilets are available as wall-mounted, One-piece or Two-piece versions. Bottom right: The undermount vanity basin is factory installed and provides a seamless transition from the ceramic to the wooden surface.

**Sheer relaxation**

This is a given with Duravit pools and steam showers. Small photos: The hinged cover transforms the Sundeck pool (by E00S) into a comfortable relaxation deck. Left: Blue Moon pool (by Jochen Schmidem) with Anthracite Oak furniture panel. Thanks to a generous depth of 19 5/8", the bather can enjoy the effect of floating.

### Flush-fitting for easy access

The DuraPlan shower tray (by Prof. Frank Huster) fits flush with the floor and is popular with design-savvy users. It is easy to clean and facilitates getting into and out of the shower, which makes it ideal for use in barrier-free bathrooms. In addition, it is easy to plan and install: a height-adjustable frame makes it possible to achieve a perfectly-suited space for the tray, while its outlet can be precisely positioned by means of a template. The result is a comfortable shower solution for every modern bathroom – barrier-free, attractive and hygienic.

# CARE. CULTURE.

### Rimless

Bottom: The wall-mounted toilets from the Darling New, DuraStyle and Happy D.2 series are also available with Duravit Rimless® flushing technology. The innovative water flow creates a powerful flush: this ensures hygienic and immaculate flushing results, even with 1.28 gpf of water. Thanks to the open and easily accessible rim area, the bowl is easy to keep clean. Center: The LED night-light function in the SensoWash® shower-toilet seat provides orientation and safety. Top right: SoftClose technology is optionally available for every toilet. Bottom right: As the toilets are concealed at the side, the Durafix attachment system enables a reduced, modern bathroom design.

### Creates space

The innovative OpenSpace shower enclosure (by E00S) creates more space in the bathroom: after taking a shower, the self-locking glass doors can simply be “folded” against the wall. There is no rail protruding into the room, the tap fittings and shower hose are concealed and the bathroom appears much larger. Can be combined with DuraPlan and other Duravit bathtubs and shower trays.

### Modern toilet hygiene at the push of a button

The SensoWash® shower-toilet seat creates a freshly-washed feeling by providing gentle cleaning after using the toilet. It can be combined with five different bathroom series. All functions can be operated via remote control: From opening and closing the toilet lid to the Rearwash, Comfortwash and Ladywash. New: The intelligent energy-saving mode with SensoWash® C. Small photo, left: The additional replacement spray head with soft jet enables individual personal hygiene.
