All prices shown in this catalogue are in USD. Accessories, decoration, faucets and tiles are not included in the price. All prices are list prices and subject to change without notice. The prices are for the described items only, there may be other items shown in the photographs which are not included. This catalogue shows a selection of Duravit's product range. For further information, please contact your Duravit dealer or visit [www.duravit.us](http://www.duravit.us) or [pro.duravit.us](mailto:pro.duravit.us).

### WonderGliss

**WonderGliss.** The WonderGliss coating that is baked into the ceramic doesn't give grime a chance: dirt and limescale cannot secure a hold on the smooth surface, so residue runs off more easily with the water. Sanitary ceramics featuring WonderGliss stay smooth and clean for longer and are thus extremely easy to clean. All it takes is a soft cloth and mild cleaning agent.

### Duravit Rimless®

**Duravit Rimless®** enables an innovative and powerful flush: water flows in the form of a horizontal arc, and then vertically, before flushing the entire inner surface of the bowl without splashing. This ensures perfect and hygienic flushing results, even with smaller volumes of water. Thanks to the open, easily accessible rim area, the bowl is particularly easy to keep clean, and this reduces cleaning times considerably.

### HygieneGlaze

**HygieneGlaze.** Duravit has a new and effective answer to the question of how to improve hygiene in toilets and urinals: HygieneGlaze. The innovative ceramic glaze is antibacterial: it effectively kills bacteria and germs. HygieneGlaze is not a surface coating. It is integrated into the ceramic glaze and then baked into the ceramic during firing, providing continuous protection with long-lasting effectiveness. Antibacterial, durable, safe: with HygieneGlaze Duravit defines a new standard in bathroom hygiene.
